DISCOVERY CENTER OF IDAHO

| BRAND GUIDE

Using a unified brand voice at all times is essential. Everything we do should stem from our brand position and highlight our key value propositions (attributes that make us unique). Our voice is always friendly, engaging and trustworthy. It's genuine and approachable, and promises STEM educational benefits. We don't oversell because we're confident that our exhibitions, programs and events offer real value in science-education for kids and adults. Simply put, the words we use will define us as much as our actions.

If you have any questions please contact Michael Cullen at m.cullen@dcidaho.org or 208.287.4232.

LOGO | Usage

DO NOT distort logo.

DO NOT place over a pattern, or texture of any kind in which the logo is unreadable.

DO NOT move logo elements.

DO NOT change logo color.

DO NOT typeset logo.

DO NOT apply shadow to logo.

DO NOT position logo at an angle

Consistent and correct use of the logo is essential. The logo must be used as provided by Discovery Center of Idaho with no changes, including but not limited to changes in the color, proportion, or design. It is also imperative to maintain a proper visual contrast between the logo and design. Inconsistent application of the logo dilutes perceived brand quality, degrades brand awareness and is therefore unacceptable.

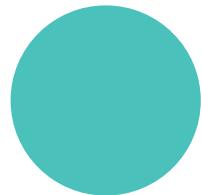

LOGO | Clearspace

In order to maintain visual integrity, a minimum clear space equal to the indicated area must be maintained around the logo. The clear space should be larger whenever possible. The logo should never feel crowded or obscure.
