**FOR IMMEDIATE RELEASE:
BRICKS!**

Boise, ID - BRICKS! is a new 3,000 square foot, highly interactive exhibition that will debut at the Discovery Center on May 10th, 2019. The hands-on exhibits have been designed and built by the Discovery Center's Exhibits Team in the Micron Innovation Lab located within the Center.

BRICKS! ignites curiosity in design and engineering processes while visitors build, create, and imagine, developing a new appreciation for this timeless classic building block. With over a dozen STEM-based, hands-on exhibits and activities, and remarkable displays of brick creations from local artists, BRICKS! takes this iconic favorite to new heights and is sure to capture the minds and hearts of visitors of all ages.

VIP Opening

On Thursday May 9th, the Center will host an **exclusive** VIP Opening for the BRICKS! Exhibition for Discovery Center members, invited donors and **local press**. This is an exclusive first look for our biggest supporters of the new exhibition.

Sponsors

BRICKS! is made possible by our presenting sponsor, Idaho STEM Action Center. Also a big thank you to the Idaho LEGO® User Group (IdahoLUG), for sharing your talented members and artwork with us, and POWER Foundation for their support.

About the Center

The Discovery Center is a non-profit 501(C)3 organization. The museum is an interactive science center featuring exhibits and educational programs that offer authentic, sensory experiences making science, technology, engineering, and math tangible for people of all ages and from all walks of life.
