Dear Discovery Center of Idaho Community,

When it comes to the novel coronavirus, we want to reassure you that the Discovery Center of Idaho has a plan in place to keep our visitors and staff as safe as possible. We are working proactively and following the recommendations and guidelines of Central District Health (CDH).

To keep you informed, CDH has established a novel coronavirus website with resources including information for members of the general public to prevent a respiratory infection.

The Discovery Center of Idaho has taken the following extra measures to ensure visitor safety:

- Field trip welcoming procedures will incorporate hand sanitizing and hand washing prior to all student access to gallery exhibits
- Educators and Volunteers will have tissues available in their aprons for drippy noses
- Hand washing stations and hand sanitizer dispensers are available and accessible throughout the Center
- Exhibits Department and Cleaning Crews will be focusing on maintaining clean areas of high volume contact such as door knobs, handles, buttons or knobs on exhibits, and handrails.

We appreciate your help in keeping our space safe for our community by keeping in mind these recommendations from the Center for Disease Control (CDC), in preparation for your visit to the Discovery Center of Idaho:

- Always wash your hands
- Stay home with signs of illness
- Cover your face in case of a cough or sneeze
- Regularly disinfect surfaces in your home and at work

Thank you for your continued support in keeping our community safe.

Sincerely,

Eric Miller

Executive Director
